## PROJECTS

- Global Assignment Help:- I've created this app in Flutter. And this to get the assignment online from a person who want to complete that from the company. It contains 6 apps:- GAH, IAH, AD, AP GAH\_AU, IAH\_AU. and all those 6 are available on Play Store.
- Gradding:- I've created Frontend of this app. This App is Designed for people who wants to Study Abroad but don't have any idea how. This App provides you the consultation regarding the Study.
- Servizly:- Servizly is a versatile and user-friendly mobile application designed in flutter for easily book your favorite beauty treatments, pick your stylist, and stay in the loop about your appointments.

- VPN:- Create our own OpenVPNServers and use .Swagger's API's to establish our vpn connections
- Winners:- Winners is a spiritual-meditation app in flutter
- Simplex:- This is a website, admin panel in ci by with website is controlled from admin panel
- Taxi:- I've created API's for app, admin panel in ci to control App's contents
